SUBJECT INDEX TO VOLUME 61

ABDOMEN, Diagnostic study of obscure abdominal complaints, ed. 549; surgery of, The mesentery, ed. 838
Abnormalities; club-feet, Treatment of congenital, 190; of face, Congenital deformities, types found in series of 1000 cases, 201; of bladder, Diversion of urine above level, ed. 406
Allison, Nathaniel, 551
Amebiasis, Medical treatment of amebic infections of liver, 521
American College of Surgeons—
Clinical Congress, Preliminary clinical program for 1935 Clinical Congress, in San Francisco and Oakland, 133; 277; 417; 561
Amniotin, Treatment of senile vaginitis with ovarian follicular hormone, 680
Ampulla of Vater, Transduodenal resection of, for carcinoma of distal end of common duct, with restoration of continuity of common and pancreatic ducts with duodenum, 651
Anesthesia, Carl Ludwig Schleich, his contribution to regional anesthesia—an historical record, 842
Aneurisms, Arteriovenous, of superior thyroid artery and vein, 816
Ankle, Surgical treatment of joint tuberculosis, 503
Antrum, Treatment of malignant tumors of upper jaw and antrum; 15 years of progress, ed. 706
Aorta, Experimental study of effects of constriction of great vessels of heart, 765
Appendicitis, Ileocolitis, acute ileocolitis simulating, and characterized by edema of ileocecal region and mesenteric glands; its relation to "regional ileitis" or "chronic cicatrizing enteritis," 6
Appendix, Ileocolitis, acute ileocolitis simulating appendicitis and characterized by edema of the ileocecal region and mesenteric glands; its relation to "regional ileitis" or "chronic cicatrizing enteritis," 6
Arm, New operative procedure for brachial birth palsy, Erb's paralysis, 832
Artery, thyroid, Arteriovenous aneurism of superior, and vein, 816

BAYLOR University, College of Medicine, 553
Bile, loss of, in peptic ulcer, experimental study, 480
Bile ducts, Transduodenal resection of ampulla of Vater for carcinoma of distal end of common duct; with restoration of continuity of common and pancreatic ducts, 651; Biliary dyssynergia; physiological obstruction of common, 721
Biliary tract, Synthesis of hippuric acid, its value in detecting hepatic damage secondary to diseases of extrahepatic biliary system, 36; Transduodenal resection of the ampulla of Vater for carcinoma of distal end of common duct, with restoration of continuity of common and pancreatic ducts, 651; Biliary dyssynergia: physiological obstruction of common bile duct, 721
Bladder, Dysontogenetic and mixed tumors of urogenital region; with report of new case of sarcoma botryoides vaginæ in child, and comments upon probable nature of sarcoma, 42; diverticula, Lateral approach for operating upon diverticula of, 184; Reconstruction of female urethra, 366; Treatment of atonic, 379; Diversion of urine above level of, ed. 406; Loss of urinary control associated with relaxation of vesical neck, modified technique for its treatment, 534; Simple seven suture method of bilateral uretero-intestinal implantation, report of 12 cases, 802
Bleeding, Significance of, or discharge from nipple, 537
Blood amylase, Acute inflammation of pancreas, cause of epigastric pain in gall-bladder disease and of recurrent pain after cholecystectomy, 670
Blood substitutes, Treatment of acute fatal hemorrhage by injection of artificial, comparative study of, 613
Blood supply, New blood supply to heart by operation, ed. 407
Blood transfusion, Treatment of acute fatal hemorrhage by injection of artificial blood substitutes, a comparative study of artificial blood substitutes, 613
Blood vessels, mesenteric venous thrombosis, 102; thromboangiitis obliterans (Buerger) XI: treatment of 524 cases by repeated intravenous injections of hypertonic salt solution; experience of 10 years, 214; Phlebitis, thrombosis, and thrombophlebitis of lower extremities, 443; Conservative and radical measures in treatment of ulcer of leg, study of techniques, indications, and results, 458; Experimental study of effects of constriction of great vessels of heart, 765; Arteriovenous aneurism of superior thyroid artery, vein, 816
Bone, Chondrosarcoma, relation of structure and location to clinical course, 68
Brachial birth palsy, New operative procedure for, Erb's paralysis, 832
Breast, Significance of bleeding or discharge from nipple, 537; Attachment of skin to lesions of breast, ed. 839
Brenner tumors, Granulosa cell and, of ovary, report of case with review of those cases already recorded, 250
Brokaw, Augustus Van Liew, 411
Burns, Ferric chloride coagulation in treatment of, with résumé of tannic acid treatment, 687; Free transplantation of skin, an evaluation of methods, 713

CARTILAGE, Chondrosarcoma, relation of structure and location to clinical course, 68
Catgut, Reliable method for testing sterility of surgical, sutures, 789
Cholecystectomy, without drainage, ed. 548
Cholesterol, Experimental production of cholesterosis of gall bladder, with observations on, absorptive properties of gall-bladder wall, 585
Chondrosarcoma, relation of structure and location to clinical course, 68
Chorioepithelioma, Early diagnosis of, 336
Circulatory system, Experimental study of effects of constriction of great vessels of heart, 765
Cleft palate, Congenital deformities of face, types found in a series of 1000 cases, 201
Club foot, Treatment of congenital, 190
College of Medicine of Ohio State University, 124
Colon, Jejunal diverticulosis, 223; Method of closure of temporary external fecal fistula, 499; Colostomy of transverse, 629; Iliac colostomy, 709
Colostomy, Method of closure of temporary external fecal fistula, 499; of transverse colon, 629
Complex, anxiety, "Peptic" ulcer and the, failure of pharmacologically sustained hypersecretion and hypermotility of stomach to produce chronic gastric ulcer in dogs, 162

Corpus luteum, Histological studies of endometrium during various phases of menstrual cycle, 751
Cranium, Pineal teratomas; case of operative removal, 523
Cystiphorous desquamative epithelial hyperplasia, Significance of bleeding or discharge from nipple, 537

DEATH, "liver," So called, syndrome in surgery, ed. 122
Dermatitis, Chronic atrophic, of vulva, 433
Diabetes, Pregnancy complicating, 324
Diagnosis, Tissue, during operation; reliability of Terry's supravital technique in 1030 biopsies, 494; differential, Diagnostic study of obscure abdominal complaints, ed. 549; differential, Useful diagnostic sign in vertebral injuries, 827
Disease, Buerger's, Thrombo-angiitis obliterans, XI, treatment of 524 cases by repeated intravenous injections of hypertonic salt solution, experience of 10 years, 214
Disinfection, Compound colored alcoholic solution of mercuric chloride for skin, 333
Drainage, Cholecystectomy without, ed. 548
Dressings, Hypertonic wet, experimental study, 623
Duodenum, Experimental studies on effects of perforation of peptic ulcers, 20; "Peptic" ulcer and "anxiety complex"; failure of pharmacologically sustained hypersecretion and hypermotility of stomach to produce chronic gastric ulcer in dogs, 162; ulcer of, Problem of gastric resection for, ed. 267; Peptic ulcer, experimental study, 480

EAR, Congenital deformities of face, types found in series of 1000 cases, 201
Early American Medical Schools—College of Medicine of Ohio State University, 124; Baylor University College of Medicine, 553
Eclampsia, Further quantitative determinations of prolan and estrin in pregnancy, with especial reference to late toxemia and, 27; Evidence for placental origin of excessive prolan of late pregnancy toxemia and, 175
Elbow, Surgical treatment of joint tuberculosis, 503
Elephantiasis, Surgical treatment of severe forms of lymphedema, of extremities, study of end-results, 83
Embryology, Dysontogenetic and mixed tumors of urogenital region, with report of new case of sarcoma botryoides vaginæ in child, and comments upon probable nature of sarcoma, 42; Constructive critical analysis of maxillary sinus surgery, 388; Pineal teratomas, with report of case of operative removal, 523
Endometrium, Experimental production of excessive endometrial hyperplasia, 15; Irregular shedding and irregular ripening of, 145; Estrogenic principle, common etiological factor of endometrial hyperplasia, uterine fibroids and endometriomas, 743; Histological studies of, during various phases of menstrual cycle, 751
Estrin, Experimental production of excessive endometrial hyperplasia, 15; Further quantitative determinations of prolan and, in pregnancy, with especial reference to late toxemia and eclampsia, 27; Evidence for placental origin of excessive prolan of late pregnancy toxemia and eclampsia, 175
Estrogenic principle, The, common etiological factor of endometrial hyperplasia, uterine fibroids and endometriomas, 743
Eyelid, Osteomas of nasal accessory sinuses, with report of case illustrating transcranial approach to orbital structures, 821

FACE, Congenital deformities of, types found in series of 1000 cases, 201
Fat, Perirenal and peripelvic fibrolipomatosis, its relation to replacement lipomatosis of kidney, 794
Femur, Chondrosarcoma, Relation of structure and location to clinical course, 68; Osteomyelitis in infants, 96
Ferric chloride, coagulation, in treatment of burns, with résumé of tannic acid treatment, 687
Fibrolipomatosis, Perirenal and peripelvic, relation to replacement lipomatosis of kidney, 794
Fingers, Generalized hypertrophic pulmonary osteoarthropathy, an experimental and clinical study with report of 2 cases, 312
Fistula, fecal, Method of closure of temporary external, 499
Foot, Treatment of congenital club-feet, 190
Foreign bodies, in the stomach, removal by peroral endoscopy, 210
Fundusectomy, in treatment of peptic ulcer, experimental study, 155

GALL bladder, Lymphatic connection between, and liver, 363; Study of relationship of pregnancy to disease of, 471; Cholecystectomy without drainage, ed. 548; Experimental production of cholesterosis of, with observations on cholesterol absorptive properties of, wall, 585; Acute inflammation of pancreas, cause of epigastric pain in disease of, and of recurrent pain after cholecystectomy, 670; Biliary dyssynergia: physiological obstruction of common bile duct, 721
Gas pain, Controlling, ed. 707
Gauze, Hypertonic wet dressing, experimental study, 623
Glenoid fossa, New method of reduction of dislocations at shoulder joint, 818
Granulosa cell tumors and Brenner tumors of ovary, report of case with review of those cases already recorded, 250

HARELIP, Congenital deformities of face, types found in series of 1000 cases, 201
Heart, Roentgenkymograph as new aid in diagnosis of adhesive pericarditis, 169; New blood supply to, by operation, ed. 407; Experimental study of effects of constriction of great vessels of, 765
Hemorrhage, Treatment of acute fatal, by injection of artificial blood substitutes, comparative study of artificial blood substitutes, 613
Heredity, Gastrojejunal ulcer and gastrojejunocolic fistula, 599
Hernia, strangulated, Massive resection of small intestine, analysis of 257 collected cases, 693; ventral, Postoperative or, method for relief of tension after repair, 836
Hip, Correction of, flexion deformity in anterior poliomyelitis, result study, 90; Surgical treatment of joint tuberculosis, 503
Hippuric acid, Synthesis of, its value in detecting hepatic damage secondary to diseases of extrahepatic biliary system, 36
Hormone, ovarian follicular, Treatment of senile vaginitis with, 680; Histological studies of endometrium during various phases of menstrual cycle, 751
Humerus, New method of reduction of dislocations at the shoulder joint, 818
Hyperacidity, Gastrojejunal ulcer and gastrojejunocolic fistula, 599
Hyperostosis frontalis interna, preliminary study, 345
Hypertonic wet dressing, experimental study, 623

ILEOCOLITIS, acute, simulating appendicitis and characterized by edema of ileocecal region and mesenteric glands, its relation to "regional ileitis" or "chronic cicatrizing enteritis," 6
Ileum, Iliac colostomy, 709
Ileus, Controlling gas pains, ed. 707

Infants, Osteomyelitis in, 96
Instruments and apparatus, Moore transpleural nephropexy needle, Transpleural nephropexy, 58; roentgenkymograph, as a new aid in the diagnosis of adhesive pericarditis, 169; lomaplast, elastoplast, flexoplast, Conservative and radical measures in treatment of ulcer of leg, study of techniques, indications, and results, 458; belt for use after repair of ventral hernia, Postoperative or ventral hernia, method for relief of tension after repair, 836
Intervertebral discs, embryology, anatomy, physiology, and pathology, 591
Intestine, Ileocolitis, acute ileocolitis simulating appendicitis and characterized by edema of ileocecal region and mesenteric glands, its relation to "regional ileitis" or "chronic cicatrizing enteritis," 6; Experimental studies on effects of perforation of peptic ulcers, 20; obstruction of, Mesenteric venous thrombosis, 102; Foreign bodies in stomach, removal by peroral endoscopy, 210; Jejunal diverticulosis, 223; Anterior gastro-enterostomy by short loop method—correction, cor. 276; Peptic ulcer, experimental study, 480; Method of closure of temporary external fecal fistula, 499; Medical treatment of amebic infections of liver, 521; Colostomy of transverse colon, 629; Massive resection of small, analysis of 257 collected cases, 693; Controlling gas pains, ed. 707; Iliac colostomy, 709; Simple seven suture method of bilateral uretero-intestinal implantation, report of 12 cases, 802
Intracranial tumors, Pineal teratomas, with report of case of operative removal, 523

JAWS, Chondrosarcoma, relation of structure and location to clinical course, 68; Treatment of malignant tumors of upper, and antrum; ed. 706
Jejunum, Jejunal diverticulosis, 223; Peptic ulcer, an experimental study, 480; Gastrojejunal ulcer and gastrojejunocolic fistula, 599
Joints, Generalized hypertrophic pulmonary osteoarthropathy, experimental and clinical study with report of 2 cases, 312; Surgical treatment of, tuberculosis, 503

KIDNEY, Transpleural nephropexy, 58; So called liver death syndrome in surgery, ed. 122; Hypoplasia of, 306; Diversion of urine above level of bladder, ed. 406; Perirenal and peripelvic fibrolipomatosis, its relation to replacement lipomatosis of, 794; Simple seven suture method of bilateral uretero-intestinal implantation, report of 12 cases, 802.
Knee, flexion contracture treated by skeletal traction, 239; Surgical treatment of joint tuberculosis, 503
Kraurosis vulvæ, Chronic atrophic dermatitis of vulva, 433; (leucoplacia) and scleroderma circumscripta, comparative histological study, 635
Kymograph, Roentgenkymograph as new aid in diagnosis of adhesive pericarditis, 169

LABOR, Further quantitative determinations of prolan and estrin in pregnancy, with especial reference to late toxemia and eclampsia, 27; Pregnancy complicating diabetes, 324; Traumatic ossifying periostitis of newborn, 385; Obstetrical analgesia with pentobarbital sodium, leucocyte response during the puerperium, 545; Practical roentgen pelvimetry; comparison of methods in 100 cases, 735
Landmarks in surgery—Nicholas Senn's work in experimental surgery and surgical pathology, and its influence on surgery of his time, 414; Iliac colostomy, 709; Carl Ludwig Schleich, his contribution to regional anesthesia—historical record, 842
Leucokraurosis, Chronic atrophic dermatitis of vulva, 433
Leucoplacia, Kraurosis vulvæ (leucoplacia) and scleroderma circumscripta, comparative histological study, 635
Leucoplacic vulvitis, chronic atrophic dermatitis of vulva, 433
Legs, Surgical treatment of severe forms of lymphedema (elephantiasis) of extremities, study of end-results, 83; Thrombo-angiitis obliterans (Buerger) XI, treatment of 524 cases by repeated intravenous injections of hypertonic salt solution, experience of 10 years, 214; Phlebitis, thrombosis, and thrombophlebitis of lower extremities, 443; Conservative and radical measures in treatment of ulcer of, study of techniques, indications, and results, 458
Lip, Congenital deformities of face, types found in series of 1000 cases, 201; Medical treatment of amebic infections of, 521
Liver, Synthesis of hippuric acid, its value in detecting hepatic damage secondary to diseases of extrahepatic biliary system, 36; So called, death syndrome in surgery, ed. 122; Lymphatic connection between the gall bladder and, 363
Lungs, Generalized hypertrophic pulmonary osteoarthropathy, experimental and clinical study with report of 2 cases, 213; Pulmonary embolism following trauma, 369
Lymphedema, Surgical treatment of severe forms of, (elephantiasis) of extremities, study of end-results, 83
Lymph vessels, Lymphatic connection between gall bladder and liver, 363

MALIGNANCY, Tissue diagnosis during operation, reliability of Terry's supravital technique in 1030 biopsies, 494; Attachment of skin to lesions of breast, ed. 839
Master Surgeons of America—August Van Liew Brokaw, 411; Nathaniel Allison, 551
Maxilla, Treatment of malignant tumors of upper jaw and antrum, 15 years of progress, ed. 706
Maxillary sinus, Constructive critical analysis of surgery of, 388
Menstrual cycle, Histological studies of endometrium during various phases of, 751
Mercuric chloride, Compound colored alcoholic solution of, for skin disinfection, 333
Mesentery, Mesenteric venous thrombosis, 102; The, ed. 838
Metacarpals, Chondrosarcoma, relation of structure and location to clinical course, 68
Method, Eisenstaedt, Geraghty, O'Day, Read, Lateral approach for operating upon diverticula of bladder, 184; Hoke, Treatment of congenital club-feet, 190; Terry's supravital, Tissue diagnosis during operation; reliability of, technique in 1030 biopsies, 494
Muscles, deltoid, New operative procedure for brachial birth palsy, Erb's paralysis, 832

NASAL accessory sinuses, Osteomas of, with report of case illustrating transcranial approach to orbital structures, 821
Neck, Useful diagnostic sign in vertebral injuries, 827
Nephropexy, transpleural, 58
Nerves, cranial, Hyperostosis frontalis interna, preliminary study, 345; vesical, Treatment of atonic bladder, 379; Trigeminal, neuralgia, experience with, and treatment employed in 468 patients during past 10 years, 394
Newborn, Traumatic ossifying periostitis of, 385
Nipples, Significance of bleeding or discharge from, 537

Nose, Congenital deformities of face, types found in series of 1000 cases, 201

OBESITY, Hyperostosis frontalis interna, preliminary study, 345; Postoperative or ventral hernia, method for relief of tension after repair, 836
Obstetrics, Traumatic ossifying periostitis of newborn, 385; Study of relationship of pregnancy to disease of gall bladder, 471; Obstetrical analgesia with pentobarbital sodium, leucocyte response during puerperium, 545; Practical roentgen pelvimetry, comparison of methods in 100 cases, 735; New operative procedure for brachial birth palsy, Erb's paralysis, 832
Ohio Medical University and Protestant Hospital, College of Medicine of Ohio State University, 124
Operation, Kondoleon, Surgical treatment of severe forms of lymphedema (elephantiasis) of extremities, study of end-results, 83; Watkins' interposition, End-results with, 403
Orbit, Osteomas of nasal accessory sinuses, with report of case illustrating transcranial approach to orbital structures, 821
Osteoarthropathy, Generalized hypertrophic pulmonary, experimental and clinical study with report of 2 cases, 312
Osteomyelitis, in infants, 96
Ovary, Irregular shedding and irregular ripening of endometrium, 145; Granulosa cell and Brenner tumors of, report of case with review of those cases already recorded, 250; Primary malignant tumors of, 289; Treatment of senile vaginitis with ovarian follicular hormone, 680

PAIN, Controlling gas, ed. 707
Pancreas, Acute inflammation of, cause of epigastric pain in gall-bladder disease and of recurrent pain after cholecystectomy, 670
Pancreatic duct, Transduodenal resection of ampulla of Vater for carcinoma of distal end of common duct, with restoration of continuity of common and, 651
Paralysis, Erb's, New operative procedure for brachial birth palsy, 832
Patella, Osteomyelitis in infants, 96
Pelvimetry, Practical roentgen, comparison of methods in 100 cases, 735
Pelvis, Practical roentgen pelvimetry, comparison of methods in 100 cases, 735
Pentobarbital sodium, Obstetrical analgesia with, leucocyte response during puerperium, 545
Periostitis, Traumatic ossifying, of newborn, 385
Pineal gland, Pineal teratomas, with report of case of operative removal, 523
Placenta, Evidence for placental origin of excessive prolan of late pregnancy toxemia and eclampsia, 175
Poliomyelitis, anterior, Correction of hip flexion deformity in, result study, 90
Pregnancy, Further quantitative determinations of prolan and estrin in, with especial reference to late toxemia and eclampsia, 27; Evidence for placental origin of excessive prolan of late, toxemia and eclampsia, 175; complicating diabetes, 324; Study of relationship of, to disease of gall bladder, 471; Practical roentgen pelvimetry, comparison of methods in 100 cases, 735
Progestin, Histological studies of endometrium during various phases of menstrual cycle, 751
Prolan, Further quantitative determinations of, and estrin in pregnancy, with especial reference to late toxemia and eclampsia, 27; Evidence for the placental origin of excessive, of late pregnancy toxemia and eclampsia, 175
Prophylaxis in gastric ulcer, Gastrojejunal ulcer and gastrojejunocolic fistula, 599
Prostate, Physiological responses of transplanted prostatic tissue in anterior chamber of eyes of rabbits, 1; Simple seven suture method of bilateral uretero-intestinal implantation, report of 12 cases, 802
Pruritus vulvæ, Chronic atrophic dermatitis of vulva, 433
Pulmonary embolism, following trauma, 369

RECTUM, Colostomy of transverse colon, 629
Resection, Massive, of small intestine, analysis of 257 collected cases, 693
Roentgenkymograph, as a new aid in diagnosis of adhesive pericarditis, 169
Roentgenography, Roentgenkymograph as new aid in diagnosis of adhesive pericarditis, 169; Diagnostic study of obscure abdominal complaints, ed. 549; Practical roentgen pelvimetry, comparison of methods in 100 cases, 735
Rush Medical College, Nicholas Senn's work in experimental surgery and surgical pathology, and its influence on surgery of his time, 414

SACRO-ILIAC joint, Surgical treatment of joint tuberculosis, 503
Salt solution, Thrombo-angiitis obliterans (Buerger) XI, treatment of 524 cases by repeated intravenous injections of hypertonic salt solution, experience of 10 years, 214
Sarcoma botryoides vaginæ, Dysontogenetic and mixed tumors of urogenital region, with report of new case of, in child, and comments upon probable nature of sarcoma, 42
Schleich, Carl Ludwig, his contribution to regional anesthesia—an historical record, 842
Scleroderma circumscripta, Kraurosis vulvæ (leucoplacia) and, comparative histological study, 635
Senn, Nicholas, work in experimental surgery and surgical pathology, and its influence on surgery of his time, 414
Sensory root operation, Trigeminal neuralgia, experience with, and treatment employed in 468 patients during past 10 years, 394
Shock, Experimental studies on effects of perforation of peptic ulcers, 20
Shoulder, Surgical treatment of joint tuberculosis, 503; New method of reduction of dislocations at, joint, 818
Skeletal contracture, Knee flexion contracture treated by skeletal traction, 239
Skin, Compound colored alcoholic solution of mercuric chloride for skin disinfection, 333; Chronic atrophic dermatitis of vulva, 433; Free transplantation of, evaluation of methods, 713; Attachment of, to lesions of breast, ed. 839
Skin grafting, Free transplantation of skin, evaluation of methods, 713
Skull, Osteomyelitis in infants, 96; Hyperostosis frontalis interna, preliminary study, 345
Sphincter, vesical, Loss of urinary control associated with relaxation of vesical neck, modified technique for its treatment, 534
Spine, Surgical treatment of joint tuberculosis, 503; Intervertebral disc, embryology, anatomy, physiology, and pathology, 591
Starling Medical College and Hospital, College of Medicine of Ohio State University, 124
Sterility, Estrogenic principle, common etiological factor of endometrial hyperplasia, uterine fibroids and endometriomas, 743; of catgut, Reliable method for testing the sterility of surgical catgut sutures, 789

Stomach, Experimental studies on effects of perforation of peptic ulcer, 20; Fundusectomy in treatment of peptic ulcer, experimental study, 155; "Peptic" ulcer and "anxiety complex," failure of pharmacologically sustained hypersecretion and hypermotility of stomach to produce chronic gastric ulcer in dogs, 162; Foreign bodies in, removal by peroral endoscopy, 210; Problem of gastric resection for duodenal ulcer, ed. 267; Anterior or gastro-enterostomy by short loop method—a correction, cor. 276; Peptic ulcer, experimental study, 480; Gastrojejunal ulcer, gastrojejunocolic fistula, 599
Stretching, Correction of hip flexion deformity in anterior poliomyelitis, result study, 90
Surgery, Nicholas Senn's work in experimental, and surgical pathology and its influence on, of his time, 414; technique, Tissue diagnosis during operation, reliability of Terry's supravital technique in 1030 biopsies, 494; technique, Hypertonic wet dressing, experimental study, 623; technique, Controlling gas pains, ed. 707; plastic, Free transplantation of skin, evaluation of methods, 713; technique, Reliable method for testing sterility of surgical catgut sutures, 789; technique, Postoperative or ventral hernia, method for relief of tension after repair, 836
Symphysis pubis, Surgical treatment of joint tuberculosis, 503

TANNIC acid, Ferric chloride coagulation in treatment of burns, with résumé of, treatment, 687
Tarsal joint, Surgical treatment of joint tuberculosis, 503
Tendo achillis, Complete excision and reconstruction of both, for giant cell xanthoma, 662
Test, Friedman, Early diagnosis of chorioepithelioma, 336; Aschheim-Zondek, Early diagnosis of chorioepithelioma, 336
Thigh, Chondrosarcoma, relation of structure and location to clinical course, 68
Thrombo-angiitis obliterans, (Buerger) XI, treatment of 524 cases by repeated intravenous injections of hypertonic salt solution, experience of 10 years, 214
Thrombophlebitis, Phlebitis, thrombosis, and, of lower extremities, 443
Tissue diagnosis, during operation, reliability of Terry's supravital technique in 1030 biopsies, 494
Tissue transplantation, Physiological responses of transplanted prostatic tissue in anterior chamber of eyes of rabbits, 1
Tobacco, use of, Thrombo-angiitis obliterans (Buerger) XI, treatment of 524 cases by repeated intravenous injections of hypertonic salt solution, experience of 10 years, 214
Transplantation, Physiological responses of transplanted prostatic tissue in anterior chamber of eyes of rabbits, 1
Trigeminal neuralgia, Experiences with, and treatment employed in 468 patients during past 10 years, 394
Tuberculosis, Surgical treatment of joint, 503
Tumors, Brenner, Granulosa cell and, of ovary, report of case with review of those cases already recorded, 250

ULCERS, peptic, Experimental studies on effects of perforation of, 20; Fundusectomy in treatment of, experimental study, 155; and "anxiety complex," failure of pharmacologically sustained hypersecretion and hypermotility of stomach to produce chronic gastric ulcer in dogs, 162; varicose, Conservative and radical measures in treatment of ulcer of leg, study of techniques, indications, and results, 458; peptic, experimental study, 480
Ureter, Lateral approach for operating upon diverticula of bladder, 184; Diversion of urine above level of bladder, ed. 406; Simple seven suture method of bilateral uretero-intestinal implantation, report of 12 cases, 802
Urethra, female, Primary neoplasms of, 229; female, Reconstruction of, 366; Loss of urinary control associated with relaxation of vesical neck, modified technique for its treatment, 534; Simple seven suture method of bilateral uretero-intestinal implantation, report of 12 cases, 802
Urine, Diversion of, above level of bladder, ed. 406; control of, Loss of, associated with relaxation of vesical neck, modified technique for its treatment, 534
Urogenital region, Dysontogenetic and mixed tumors of, with report of new case of sarcoma botryoides vaginæ in child, and comments upon probable nature of sarcoma, 42
Uterus, hemorrhage, Experimental production of excessive endometrial hyperplasia, 15; Dysontogenetic and mixed tumors of the urogenital region, with report of new case of sarcoma botryoides vaginæ in child, and comments upon probable nature of sarcoma, 42; hemorrhage, Irregular shedding and irregular ripening of endometrium, 145; Early diagnosis of chorioepithelioma, 336; End-results with Watkins' interposition operation, 403; Estrogenic principle, common etiological factor of endometrial hyperplasia, uterine fibroids and endometriomas, 743

VAGINA, Dysontogenetic and mixed tumors of urogenital region, with report of new case of sarcoma botryoides vaginæ in a child, and comments upon probable nature of sarcoma, 42; Reconstruction of female urethra, 366
Vaginitis, senile, Treatment of, with ovarian follicular hormone, 680
Varicose ulcers, Thrombo-angiitis obliterans (Buerger) XI, treatment of 524 cases by repeated intravenous injections of hypertonic salt solution, experience of 10 years, 214
Varicose veins, Phlebitis, thrombosis, and thrombophlebitis of lower extremities, 443
Vertebra, Intervertebral disc, embryology, anatomy, physiology, and pathology, 591; Useful diagnostic sign in vertebral injuries, 827
Volvulus, Massive resection of small intestine, analysis of 257 collected cases, 693
Vulva, Chronic atrophic dermatitis of, 433; Kraurosis vulvæ (leucoplacia) and scleroderma circumscripta, comparative histological study, 635

WILLOUGHBY Medical College, College of Medicine of Ohio State University, 124
Wrist, Surgical treatment of joint tuberculosis, 503

XANTHOMA, Complete excision and reconstruction of both Achilles tendons for giant cell, 662
